

CODEC SHARE

E@SY Applications

Ed.: 12/04

CODEC SHARE Software to share Course and Eagle Codecs among different studios

The Codec Share application controls COURSE and EAGLE Codec banks and routes their audio through the IMPACT Matrix.

It allows the following functions to be performed, among others:

- Exclusive use of one or several codecs, routing their audio to specific circuits that lead to the appropriate studios.
- Reserve specific codecs for use at predetermined times from a studio, keeping the same number for listeners of a program..
- Resolve conflicts of agendas for Audiocodecs usage.
- Choose phone number and encoding mode and storage in the phone book.
- Restrictions according to security level.
- Call barring functions.

BENEFITS AND DIFFERENTIATING FEATURES

- Saves codecs, as all of the codecs in all of the studios will never be used simultaneously.
- Distributed and hierarchical management, preventing operation errors.
- Possibility of having all the codecs from the production center available for a special program.
- Continuity of a phone number for a specific program.
- Incorporates the mechanisms of restriction necessary to avoid interference with Systel 6000, Impact+ and other applications that share the same Matrix block..
- Control of telephone costs.
- Multi-user and multitasking..
- Enables the concentration of Audiocodecs to a single location in your installations..

ORDER INFORMATION

Codec Share 1

Software to share E@gle and Course codecs among studios, routed through Impact matrixes.

License for the first user on each E@sy network

Codec Share +

License for each user in addition to the first one on the same E@sy network
